Fraser's Tested Dahlias

1-9-2-6

George W. Fraser Dahlia Specialist Willimantic, Connecticut

GREETINGS

In presenting my 1926 catalog, I wish to express my deep appreciation for the liberal support extended to me, also for the many kind words and letters received during the year.

My stock is larger than ever, but my policy of testing every variety in my own trial garden before listing in my catalog, still stands, and as expressed in former catalogs YOU TAKE NO CHANCES WHEN ORDERING FROM THIS LIST.

During the fall of 1925 I judged many shows throughout New England, New York, New Jersey, and Maryland; also the A. D. S. Trial Gardens at Storrs, Conn., and College Park, Md., also the Dahlia Society of N. J. Trial Gardens, New Brunswick, N. J., so had an opportunity to see all the worth while varieties in the east, and it is a source of satisfaction to know that the East is unsurpassed in the production of new varieties.

Thanking you again for past favors, assuring you to do all in my power to merit a continuance of your kind patronage

Respectfully yours,

GEO. W. FRASER.

Member of The American Dahlia Society
The New England Dahlia Society
The Maryland Dahlia Society

The Connecticut Horticultural Society

The Society of American Florists.

I have arranged with Mr. Paul A. Davis, Plaistow, N. H., to introduce his new Cactus Dahlia

"FARNCOT"

Farncot gained the A. D. S. Certificate of Merit at Storrs, Conn., 1924 scoring 86 points.

The color is Aster purple, tipped white. The flowers have perfect form and are carried on top of good stiff stems. This variety is very distinct and should be included in every collection.

The best keeping cactus on the market.

Price, strong clean field grown tubers, \$5.00 each. Plants \$2.50.

Orders filled in strict rotation.

GENERAL INFORMATION

PLEASE READ BEFORE ORDERING

ORDER EARLY—All orders filled in rotation—ordering early insures reservation of varieties that may later be sold out.

Small orders receive the same careful attention as the large ones.

- **SUBSTITUTION**—Orders are filled with varieties called for, and, I never substitute unless directed to do so.
- GUARANTEE—I guarantee every root, and plant, to be true to name and in good growing condition when sent out by me. I will cheerfully replace any that may prove otherwise, but will not be held responsible for any amount in excess of the purchase price.

Do not plant roots (tubers) immediately on receipt of same. Put them in a warm, moist place, cover lightly with damp sand, soil, or moss, and when they begin to sprout, plant where desired. If, for any reason, roots (tubers) fail to sprout, return same to me with tag attached, and I will replace same with a perfect root. However, I will not be responsible if they are kept in a too dry place a long time before planting, or otherwise abused.

- SHIPPING—I begin shipping dahlia roots (tubers) after May 1st, unless notified for earlier delivery. Green plants after May 25th. Dahlias ordered shipped before April 15th will be sent only at Purchaser's risk of drying out or freezing.
- TERMS—Cash with order or in advance of shipment. No goods sent C. O. D. unless 50 per cent. of purchase price accompanies order.
- **REMITTANCES**—Should be made by bank draft, post office money order or registered letter. Postage stamps accepted up to \$2.00.
- **SIZE OF ROOTS**—(Tubers) the size of the root does not in any way indicate the size of the plant, or flower. Some varieties of dahlias always produce small roots, while other varieties make large ones. A good many of the best varieties have very small roots, so do not consider small roots worthless. Any root with a good growing bud will grow, and make a good plant if properly looked after.

CULTURAL DIRECTIONS—Inclosed in with each order.

ERRORS—In the rush of the shipping season errors are possible to occur. Kindly notify me promptly so that proper adjustment can be made at once. Kindly keep a copy of your order for comparison.

INVITATION

Is cordially extended to all dahlia lovers to visit my gardens, where you may see thousands of beautiful blooms in all their glory.

My gardens are located on the Willimantic-Norwich state road, adjoining the Willimantic Camp Ground. Can be reached by auto and trolley. Five minutes from center of city.

Creamo. H. Sh.—Color, deep straw. Immense flower on		Hant
long stem	.75	
stems	.35	
Daddy Butler. (Bessie Boston) H. C.—An attractive shade of Rose Carmine. Large flowers on good stems	2.50	1.25
Dakota. (Marean) Dec.—Flame color; large flower on strong stem; vigorous grower; splendid for garden or exhibition	1.00	
Dreamlight (Bessie Boston) Pf. —An early flowering peony variety of pale rose pink; profuse bloomer, and very	2.00	1.00
attractive; good stem	2.00	1.00
reverse of petals old rose. Extra large flowers on strong stems. A sure prize winner	1.00	
Dolly Varden (Bessie Boston) Dec. —A narrow petaled decorative, the irregular formation of the petals, give it a very artistic appearance. The color is true pink, with creamy center. Fine stem	3.00	1.50
Elite Glory (Kennedy) Dec. New 1926—The most sensational Dahlia of the season. It is a monstrous flower of a brilliant rich red color, without any apparent purple or maroon shading. Its blooms and foliage are gigantic in size, and strange to say, not awkward in appearance, but very pleasing and graceful. Elite Glory is regarded as a "Break" in the Dahlia World, and cannot be surpassed for spectacular effect, either for exhibition or garden purposes. One of its many good features is its keeping quality as a cut flower. Elite Glory has the honor of winning the following prizes and certificates in 1924: First prize for largest bloom in N. J. State Show, Trenton, N. J.; first prize for largest bloom in Monmouth County Horticultural Show at Red Bank, N. J.; certificate of merit at New Brunswick, N. J.; certificate of merit at Caldwell, N. J., certificate of merit at Red Bank, N. J.; certificate of merit for best undisseminated seedling in A. D. S. Show at New York, N. Y.; scored 92—exhibition at A. D. S. Trial grounds, at Storrs, Conn., also recommended for Gold Medal; scored 91—exhibition		
at N. J. Dahlia Society, Trial grounds, at New Brunswick N. J.	$\overset{\mathrm{Net}}{25.00}$	10.00
Earl Williams. (Doolittle) Dec.—A unique and attractive dahlia. The color is a combination of brilliant crimson and white. Large flowers on straight stems	2.00	1.00

	Tuber	Plant
Ebenezer. (Vincent) H. C.—Amaranth purple blended with tyrian rose, reverse of petals mallow purple; free flowering, good stems	3.00	1.50
Edith Slocombe. (Slocombe) H. C.—A fine type of Hybrid cactus with long wiry stem. Color rich purplishgarnet shades, velvet maroon	2.50	1.25
Elizabeth Butler. (Butler-Bessie Boston) H. C.—The color as described by the introducer: "The color is the same as the old favorite Futurity, except it shades to a soft yellow as the petals recede toward the centre. This hybrid cactus has large size and stem"		1.25
Elizabeth Slocombe. (Slocombe) Dec.—Color rich purplish-garnet. The large flowers are carried on long stiff stems		1.00
Eliza Clark Bull. (Bessie Boston) Dec.—One of the best white decoratives to date. Large flowers of perfect form, with splendid stem and growth. Plants only		3.00
El Granada. (Bessie Boston) H. C.—An immense orange and gold hybrid cactus. We grew this to perfection in our gardens last fall and must say that it came up to expectations. The flowers are well formed, of good depth and the stem long and stiff. Stock very scarce		5.00
Eldorado. (Bessie Boston) Dec.—Dwarf growing variety with large deep flowers of pure golden yellow, with splendid stems. A beauty		2.50
Elinor Vanderveer (Seal) Dec.—A sensation in 1925. Described by the introducer as follows: "An incomparable dahlia of exquisite beauty and great size, having every desirable quality. The large blossoms are of a glowing, satiny, rose pink. The flowers are of great depth and substance, and are held far above a tall, sturdy bush, on exceptionally long, stiff stems"	Net	4.00
Enchantress. () Dec.—A Holland introduction of Chrysanthemum-flowered form composed of long, recurving petals of a glistening salmon-rose with golden suffusion	1.00	
Elsie Oliver. (Bessie Boston) H. C.—Large flower of perfect form. Color creamy pink shading to cream at		1.25
center, free flowering and good stem		
well rolled petals with serrated tips		1.75
ing variety, color orchid pink, good stem	1.50	.75

	Tuber	Plant
Francis Lobdell (Waite) H. C.—Marshmallow pink and white. Strong growing plants that are a mass of bloom all season. Awarded the A. D. S. Certificate of Merit, Storrs, Conn., 1922	2.50	1.25
F. W. Fellows. (Stredwick) C.—The best all around cactus in my opinion for garden or exhibition. Orange color; large, perfect flowers. No garden complete without this fine variety		
Geo. C. Meachen. (Meachen & Sherman) Dec.—A giant flower of great depth, color pinard yellow with reverse of petals showing rose pink. Strong stem holds flowers		-
well up above foliage. George Walters. (Carter) H. C.—An immense flower of a pleasing shade of salmon-pink, gradually becoming yellow at the base of the petals. Early and free flowering.		2.50
Always a prize winner	.75	
color is soft buff shaded with salmon	1.00	
Golden Queen (Stredwick) Dec.—A free flowering, narrow petaled variety, the deep yellow, flowers are held above the foliage on good stems. A mass of bloom all sum-		
Cladve Rates (Receip Roston) C A free flowering variety		1.75
Gladys Bates. (Bessie Boston) C.—A free flowering variety of the American Cactus type. Flowers large and of a beautiful tan color, the reverse of the petals rose. Good stems	1.00	
Gladys Sherwood. (Broomall) H. C.—Pure white, large flowers often 9 inches in diameter, without disbudding, very free flowering, strong stems. A prize winner		
every time		
color, slightly reddish towards center. Long leafless stems. None better for exhibition or cutting	1.00	
Golden West. (Broomall) H. C.—A popular cut flower variety, very free flowering and a great keeper when cut. Color deep yellow overlaid with orange. Good stems	.50	
Grizzly. (Burns) Dec.—Deep velvety red, vigorous grower with large flowers held well above the foliage on long stiff stems. Should be in every collection		
Grisette (Bessie Boston) H. C.—Large flowers of good form, carried on good stems. The color is old gold, with pink suffusion; good exhibition and cut flower variety		2.00
Henry Jr. (Broderick) Dec.—A fine garden variety, free flowering and for cutting all that can be desired. Color lemon yellow with pink shadings		2.00

	Tuber	Plant
Helen Hollis. Sh.—Scarlet. A fine show variety, the large flowers are held well above the foliage on strong stems	.50	
Hercules. (Marean) Dec.—Tangerine with yellow, large flower, medium stems	2.00	
Hollywood. (Vincent) C.—A free flowering variety, deep salmon pink color, very desirable	2.50	1.25
Ida Tarbell () Dec.—A dwarf growing variety, with immense flowers carried on the top of stiff stems. Color	9.50	1 7 5
deep maroon Islam Patrol. (Davies) H. C.—This large, red and gold	3.50	1.75
variety should be in every collection. The stiff stem shows flowers to good advantage	5.00	3.00
variety imported from France. A free, upright grower, with stems that hold the flowers well up above the foliage, color golden bronze with faint suffusion of red Jersey's Ideal (Waite) Dec. New 1926—An immense bloom		.75
of deep lavender, overlaid with a silver sheen. The flowers are carried on good stems. A. D. S. Certificate of Merit, Storrs, Conn., 1925, (85 points)	Net 10.00	5.00
iety from Mr. Waite. The color is Apricot yellow, slightly shaded with pinard yellow; large flowers on good stems. A. D. S. Certificate of Merit, Storrs, Conn. 1925 (86 points)	Net 10.00	5.00
pale rosalane purple, reverse of petal rosalane pink. Stiff upright stem. A. D. C. Certificate of Merit, Storrs, Conn., 1925 (86 points) Jersey's Sunshine (Waite) Dec. New 1926.—Light green yellow, the large flowers are borne on long stiff stems.	Net 10.00	5.00
A splendid addition to the Jersey family. A. D. S. Certificate of Merit, Storrs, Conn., 1925 (87 points)	Net 10.00	5.00
Jersey's Beacon (Waite) Dec.—Chinese scarlet with paler reverse, giving a two-toned effect, very large flower, on good stem. A prize winner everytime	Net 10.00	5.00
Jersey's Beauty, (Waite) Dec.—Very fine true pink, flowers of perfect shape, produced on long, straight, stiff stems. Very free bloomer, and a splendid keeper. Cer-		
tificated A. D. S. Storrs, Conn., 1923	3.50	1.75
stems. A very free bloomer. Certificated A. D. S. Storrs, Conn., 1923	4.00	2.00

	Tuber	Plant
Jersey's Jewel, (Waite) Dec.—Mallow pink, very large, long petaled flowers, on good stems. A splendid exhibition variety, flowers can be had nine inches without disbudding. Certificated A. D. S. Storrs, Conn., 1923. Winner of many first prizes		2.50

Regent. (Bessie Boston) C.—Beautiful flower of clear mauve pink; the large flowers are held well up on good stems, very free flowering; splendid for exhibition and cutting		.75
Rienzi. (Bessie Boston) Dec.—"Big, bold flowers of great depth and of unique coloring, bright scarlet verging on vermillion, with reverse of gold." Stems stiff, holds flowers well up. One of the best in our garden last		
Rosa Nell. (Broomall) Dec.—A large flower of clear	3.00	1.50
bright pink color. Perfect form; good stems. A splendid dahlia in every respect	2.50	1.25
purple, shading to pansy purple in center; free flowering, good stem. A. D. S. Certificate of Merit, Storrs, Conn., 1923	2.50	1.25

		BM 6.5 6.3 6.3 5.5 6.8
	Tuber	Plant
Robert Treat (Mueller) Dec.—Color American Beauty Rose; this variety has won several cups and medals during the past two seasons. The large flowers are held perfectly erect on strong stems		2.50
Sanhican's Blue Bird (Fisher & Masson) Dec.—A dwarf		
growing variety; early and free flowering. The color is a beautiful violet blue. Good stem	3.50	1.75
Shelikoff. (Mastick) Dec.—Color a beautiful deep garnet. The flowers are of perfect form, large and deep. Long stiff stems. A. D. S. Certificate of Merit, Storrs, Conn., 1920		
St. Francis. (Bessie Boston) Dec.—Large, well formed		
flowers of a soft cream color with shading of pink. Good stem and keeping quality	3.50	1.50
of a delightful old rose suffused with lilac, and shadings of greenish white towards center. The stems are long		
and erect holding the large flowers well above the		
foliage		2.00
Snowdrift. (Broomall) Dec.—Large white decorative.		
The large flowers are perfect in form, with broad waxy,		
pure white petals. A splendid keeper. Fine for exhibition	.75	
Susan G. Tevis (Bessie Boston) Dec.—Deep lilac with		
bluish tone. A vigorous grower with dark, bronze fol-		
iage, large flowers, strong stem	5.00	2.50
Sydney Jones (Stredwick) C A fine cactus variety, the flor-		
ets are long and very narrow; color a clear deep pink,		
with shadings of yellow at base, tips of petals white		1.00
Tehachepi (Broomall) H. C.—This might well be called		
Yellow Gladys Sherwood, form and habits being somewhat similar. A fine yellow and worthy of a place in		
every garden	3.50	1.50
T. A. Leonard. (Bessie Boston) Dec.—An attractive and		
free flowering variety, color deep carmine rose. The		
large flowers with their peculiar petal formation always		
draws attention in the garden. Stem good	2.50	1.25
The Eagle. (Burns) H. C.—A sulphur yellow hybrid cactus,		
florets slightly reflex, a large flower; a good keeper with long stiff stems. Free flowering	1.00	
The Emperor. (Marean) Dec.—Velvety maroon, immense		
flowers on extra long stems; a wonder flower	2.00	1.00
The Red Planet. (Marean) Dec.—Large flower of splendid		
form, the color is cerise red, suffused yellow. Fine for		
exhibition and garden	2.50	1.25

	Tuber	Plant
Trentonian (Fisher & Masson) Dec.—Large flowers of fine		
form carried on long stiff stems. The color is a beautiful blend of amber and coppery bronze. A true Autumn	Net	
shade, one of the best	7.50	4.00
Venus. (Marean) Dec.—Very free flowering variety, color, creamy white with lavender suffusion. Good stem	1.00	
Violetta. (Waite) H. C.—Petunia violet, one of the best in color, for garden or exhibition. Good stem	2.50	1.25
Washington City. (Broomall) H. C.—Pure white. A first		
class all round white; the flowers are large and star like, borne on good stems well above the foliage	.50	
Winfield Slocombe. (Slocombe) Dec.—Burnt orange suffused yellow, large flower; good stem. A. D. S. Certificate of Merit, Storrs, Conn., 1921. A prize winner		
wherever shown last year	2.50	1.25
Wm. Slocombe. (Slocombe) Dec.—A free flowering variety; the color is a beautiful creamy yellow; always in		
demand as a cut flower, nothing better for exhibition	1.50	.75
World's Best White. (Murphy) Dec.—Flowers of great	5 00	250
size and depth, free flowering and good stem	5.00	2.50
W. E. Cooper. (Bessie Boston) Dec.—One of the best pink dahlias, large, perfect flowers on fine stems that		
cannot be beat in its color	2.50	1.25

If it so happened that you visited my gardens, or exhibits at the various shows and made notes of varieties not found in this catalog write me regarding them.

In regard to green plants I do not agree with those that say "that a variety deteriorates and becomes diseased" when propagated by cuttings.

It has been proven by experience that you produce a healthier stock, and better flowers from cuttings than from tubers, IF THEY ARE PROPAGATED INTELLIGENTLY BY EXPERIENCED PROPAGATORS instead of the haphazard way a good many of the inexperienced employ. I will admit that the yield of tubers may not be so great, but this is more than made up in the difference in price and the superior flowers produced by the green plants.

Every dahlia grower who has given green plants a fair trial will substantiate these remarks.

COLLECTIONS

To those not acquainted with the various classes and varieties of dahlias I will make up collections of one dozen roots, my own selection, all named varieties, for \$5.00, \$10.00, \$15.00, \$25.00 and up to \$100.00. Or if you wish to send me the amount of money you want to invest in a collection, I will send you in return a collection of dahlias that cannot fail to give you satisfaction.

TRY ONE AND BE CONVINCED

BARGAIN COUNTER

I HAVE A QUANTITY OF DAHLIA ROOTS THAT HAVE BECOME MIXED IN HANDLING. ALL GOOD VARIETIES. WHILE THEY LAST, \$3.50 PER DOZ.

You Are Invited to Become a Member of

THE AMERICAN DAHLIA SOCIETY

The Bulletin of the society is published quarterly and contains valuable information on Dahlia growing. It is sent free to every member. Dues \$2.00. Write WM. J. RATHGEBER, SECRETARY, 198 NORTON STREET, NEW HAVEN, CONN.

GLADIOLI HOW TO GROW GLADIOLI

The gladiolus like the dahlia will thrive in almost any climate and any kind of soil.

The bulbs should be planted from four to six inches deep after the ground

has warmed up in the spring and the danger of frost over.

Cut the flowers as soon as the lowest bud opens, taking care to leave four or five of the lower leaves to help the growth of the new bulbs.

Lift the bulbs in the fall and store in a dry place, free from frost.

FRASER'S TESTED GLADIOLI THE CREAM OF MODERATE PRICED VARIETIES

- Anna Eberius.—A very much admired large deep purple, shading to deeper, throat. This variety is a fine grower and multiplies rapidly.
 - 25c each \$2.50 doz.
- Alice Tiplady.—Most attractive large Primulinus species of a rich salmon orange, with soft genanium tongue. The growth is rather low and the flower stalks are very graceful. Splendid for table decorations.
- Byron L. Smith.—A beautiful orchid-like lavender pink. The blooms are large, wide open and exceptionally well packed. One of the choicest.
- Carmen Sylva.—Pure snow white, throat slightly penciled lilac. Very large
- **Crimson Glow** (Betscher).—A very large wide open glowing crimson. flowers are of fine form and exceedingly well placed on the spike. vigorous grower and by far the best crimson15c each \$1.50 doz.
- Diener's American Beauty.—Brilliant American beauty color, prominent cream yellow throat. The flowers are very large and well placed on the spike. A great many open at one time making each spike a bouquet in itself.
-40c each \$4.00 doz. Evelyn Kirtland.—A large, wide open flower, rosy pink shading to shell pink in throat. Spikes are long and graceful. One of the best for cutting. 20c each \$2.00 doz.

Flora.—A beautiful canary yellow with scarcely any markings. The blooms are large and well placed on the spike. This variety will become very popular with the florists. 20c each \$2.00 doz.

Freda. (Salbach) 1923—Very large, wide open geranium pink shading to La France pink center. Cream lip with faint carmine markings in throat.

Le Marechal Foch (P. Van Deursen).—One of the best of the recent introductions. Pure delicate rosy pink, wide open, broad petaled. Very large lily-like flower. Blooms two weeks earlier than America, and multiplies rapidly. Invaluable to florists. Fine for forcing. 15c each \$1.50 doz. Louise. (Wright).—Large, well opened orchid-like flower. The color is an

attractive bright blue lavender, with wine-colored blotch in throat. One

Mary Pickford.—A beautiful refined white with delicate cream throat. Awarded Certificate of Merit by Royal Horticultural Society, London, in 1920

Mrs. Frank Pendleton.—One of the finest varieties in existence. The flowers are of large size, borne on strong graceful spikes. The color is a beautiful soft pink with brilliant deep red blotches in throat. 10c each \$1.00 doz.

Mrs. Dr. Norton.—Delicate cream and pink, very graceful spike. Much admired in the garden and an exceptionally fine gladiolus for table decora-

Prince of Wales. (Kelway)—An early flowering variety with large spikes of a delicate apricot-pink suffused salmon. 15c each \$1.50 doz.

Rose Ash. (Metzner).—General effect, what is commonly known as 'Ashes of Roses.' It is fine in its pastel coloring, fine in the garden and as a cut flower. It has great decorative possibilities."..... 30c each \$3.00 doz.

Schwaben.—Delicate primrose with yellow and crimson center, large flower.

Salbach's Prim. (Salbach) 1923—Tall, peach red shading to strawberry pink, deep in throat; empire yellow on two lower tips.

War.—Deep blood red. Giant flowers of great substance.

10c each \$1.00 doz. Wilbrink.—Lovely flesh-pink with creamy blotch on lower petals; one of the

Collection.—One bulb each of the above named 21 varieties, value \$3.85 for

Special Offer.—Assortment of good unnamed varieties .50c doz. postage extra.

AGERATUH FRASERI

The ideal Ageratum for pot plants and bedding, dwarf robust compact grower, large flowers, true Ageratum blue.

From 2 1-2-inch pots, \$1 per doz., \$7.50 per 100. From 3-inch pots, \$1.50 per doz., \$10 per 100.

CLASSIFICATION OF DAHLIAS

AS ADOPTED BY THE AMERICAN DAHLIA SOCIETY

Cactus Dahlias. a. True, fluted type. Flowers fully double; floral rays (petals) long, narrow, incurved or twisted, with sharp, divided, or fluted points and with revolute (rolled back) margins, forming, in the outer florets, a more or less perfect tube for more than half the length of the ray.

b. Hybrid cactus or semi-cactus type: Flowers fully double; floral rays short as compared with previous type, broad, flat, recurved or twisted, not sharply pointed except when tips are divided (staghorn), margins only slightly revolute, and tubes of outer florets, if any, less than half the length of the

гау.

Decorative Dahlias. Double flowers, full to center in early season, flat rather than ball-shaped, with broad, flat, somewhat loosely arranged floral rays with broad points or rounded tips which are straight or decurved (turned down or back), not incurved, and with margins revolute if rolled at all.

Ball-Shaped, Double Dahlias. a. Show type: Double flowers, globular or ball-shaped rather than broad or flat, full to center, showing regular spiral arrangement of florets; floral rays more or less quilled or with markedly involute margins and rounded tips.

(The class called Fancy Dahlias is not recognized separately in this classification, but is included in the sub-section A.)

- b. Hybrid show, giant show or colossal type: Flowers fully double, broadly hemi-spherical to flatly globular in form, loosely built so spiral arrangement of florets is not immediately evident; floral rays broad, heavy, cupped or quilled, with rounded tips and involute margins.
- c. Pompon type: Shape and color may be same as A or B; but must be under two inches in diameter.

Paeony-flowered, or "Art" Dahlias. Semi-double flowers with open center, the inner floral rays being usually curled or twisted, the other or outer petals being either flat or more or less irregular.

Duplex Dahlias. Semi-double flowers, with center almost exposed on opening of bud, with petals in more than one row, more than 12, long and flat, or broad and rounded, not noticeably twisted or curled. Many so-called Paeony-flowered Dahlias belong here.

Single Dahlias. Open centered Dahlias, small to very large, with 8 to 12 floral rays, more or less in one circle, margins often decurved (turned down or back). There are no distinctions as to colors. The type embraces the large Twentieth Century, as well as small English varieties.

Collarette Dahlias. Single type: Open centered blossoms with not more than nine floral rays with one or more smaller rays, usually of a different color, from heart of each ray floret, making a collar about the disc.

Anemone-Flowered Dahlias. Flowers with one row of large floral rays like single Dahlias, but with each disc flower producing small, tubular petals.
